In this month's Member newsletter, you'll find details about another record-breaking royalty distribution, new offerings now available through The MLC's Member Benefits program and some new foreign-language resources that we recently launched. Let's dive right in!

MARCH ROYALTY DISTRIBUTION RECAP

The MLC completed its third monthly royalty distribution of 2022 on Wednesday, March 16, and we once again set a new record for the largest distribution to Members!

This month's distribution primarily covered newly reported usage that took place in December of 2021. The total of all royalty pools reported to The MLC for this cycle was just over **\$60.4 million**. We were able to match **84.5 percent** of that amount to songs currently registered in our database – our highest initial match rate to-date. After deducting royalties for usage covered by voluntary licenses maintained by DSPs with rightsholders, we collected **\$56.7 million** in royalties and distributed **\$40.8 million** to our Members.

The remaining royalties still pending distribution break down as follows:

- **\$10.2 million** in royalties for uses we have not been able to match to registered works;
- **\$5.3 million** in royalties for shares of matched works that have not yet been registered (or claimed) by our Members; and
- **\$419k** in matched royalties that are on hold.

In addition, The MLC also distributed an additional **\$4.6 million** in royalties from previously unmatched or unclaimed uses that we were able to match – through reprocessing – to data submitted to us after we completed the initial distribution cycle for that usage.

NEW FOREIGN LANGUAGE RESOURCES

The MLC recently published a French-language resource page on its website (lamlc.com) to help French speaking rightsholders learn about The MLC and the benefits of becoming a Member. Similar to the Spanish-language resource page (elmlc.com) that The MLC rolled out last September, the new page features a French version of The MLC's 60-second “explainer video” and an array of background materials that detail the mechanical licensing landscape, how The MLC operates, the process of joining The MLC, the tools available to Members and much more.
